

Town Talk
BY
FED ROBINSON

For the past few days, mail has been reaching me at San Rafael, California, although we are visiting our daughter at San Anselmo, situated at the edge of Kentfield, in the Greenbrae Community. These little towns overlap one another—like hot cakes on the griddle—Each town has its separate little government, school system, etc.

These Californians are the most progressive, with the most urge for achievement, and the greatest desire for achievement of any people in the wide world. They spend more money building a pretty roadside rock garden or hanging flowers to a hillside, than some counties in Arkansas will spend for school buses.

The school buses out her run on an exact minute schedule and each community having its own bus which discharges its little passengers on the side of the street where they live and will never permit a child to cross the street to reach its door step. Over in Arkansas or Mississippi if a school bus can get the kids to the county line we are all pretty happy with our progress. Here in the San Francisco Bay area live nearly two million people and there are many efforts made to protect and preserve human life. In San Rafael, as in other California cities, the pedestrian has the right-of-way at street crossings. There are few, if any, signal lights. The pedestrians simply step out into the street intersection, and cars and trucks stop, and wait patiently.

When Padre Junipero Serra founded the City of San Francisco in 1799, he could not have imagined that one day all these pretty hills would be covered like berries on a bush with fancy painted houses setting in little niches made by bulldozers.

Wherever there is 100 square feet available they build a little shell-like place and build a house, and finish it off with pink or blue plaster and plant a garden around it. Almost a complete circle around San Francisco Bay is a panorama of colorful homes and flower gardens in imitation of the hanging gardens of old

Nabuchadnezzar built in Babylon for his lonely wife. The weatherman out here is surely one of the clan known as 'native sons' because he can be depended upon to furnish exactly the right kind of weather for the perennial blooms that cover this country side. There's a misty rain out here that seems to fall ever so gently, and little droplets - cling to the trees and flowering shrubs like glittering beads, as the sun and clouds alternate in a passing parade. The City of San Francisco rises only 6 feet above sea level and on every are is a raincoat as the people pour into the great canyon-like streets in the early morning, but back in the hills there will be a sharp wind and bright sun for at least some part of every day in the year. Every day is a day out here. Every day is a holiday to thousands of people who go rushing from place to place in an effort to see and catalog all the wonderful sights situated on this slender little fringe of the good old USA.

RECIPES FOR THE CHRISTMAS HOLIDAYS

(By Beryl Elder)

Cheese Straws

2 cups flour, 1 teaspoon salt, 1/4 tsp. red pepper, 1 stick butter, 1 lb. sharp cheese.

Cream butter and add grated cheese, salt, pepper and flour.

Run through cookie press onto baking sheets. Bake at 300°F. until slightly brown, about 10 to 15 minutes.

Divinity

3 cups sugar, 3-4 cup light corn syrup, 1 cup boiling water, 3 egg whites, 3-4 teaspoon vanilla, 1 cup nuts, pinch salt.

Place sugar, water, corn syrup and salt in pan, bring slowly to a boil, stirring until sugar dissolves, cook until it forms a hard (crack) ball in cold water or to 260°F. When syrup reaches hard-ball stage pour it gradually into stiffly beaten egg whites, beating constantly until it becomes thick. Add nuts and flavoring, continue beating until loses glossy look and holds shape, drop from spoon onto wax paper.

Chocolate Fudge

Mix: 2 cups sugar, 1/2 cup top milk, 2sq. chocolate, 1-3 cup Karo, 1 teaspoon vanilla, 1 or 2 cups pecans.

When mixture begins to boil, boil for 2 minutes. Then pour into another bowl, let cool, then beat. Add

vanilla, pinch salt and pecans. Pour into buttered dish or dip by spoon onto waxed paper.

A CHILD'S FAITH

To a youngster, it seems that mother can do almost anything. They can repair a broken toy, heal a cut finger, or brush away fear. A child's faith is one of the treasured rewards of parenthood. The feeling of relief and security inspired by the presence of the family physician as he ministers to a loved one is much the same. The physician's mere presence in time of emergency instills confidence, removes fear. The family physician is indeed a servant of mankind: in sickness, in health, in all times.

A Legend of the Christmas Gift

It is said that whoever on the Night of the Nativity goes forth bearing a loaf of bread for those who are hungry, red wine for the thirsty, kindling wood for a chilled household a coat to warm a stranded traveler, some hay for a starving animal, war music for all the birds, and candy canes and goodies for the children.

This person, it is said, will receive in return gifts that will rival the colors of the peacock, the music of heaven. He shall live to a great age, yet shall he walk upright and be at peace as one whose heart shines like a great star.

Money where it counts

GULF dollars are ringing up sales in cash registers all over Mississippi... adding momentum to the economic progress which is bringing a better life to all Mississippians.

GULF's expenditures this year have injected more than 17 million new dollars into this state's economic bloodstream, raising the company's total Mississippi expenditures to \$120 million.

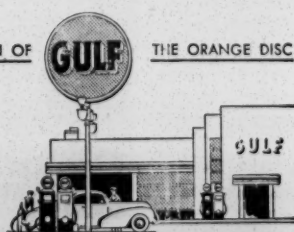

Besides GULF's Mississippi employees and suppliers, many thousands of Mississippians are reaping benefits from GULF's operations. To date, GULF has paid over \$23 million in lease bonuses, rentals and royalties direct to Mississippi landowners.

GULF's faith in Mississippi, its vision, skill and money... together with the friendly attitude of Mississippi's citizens and their elected officials... have combined to score worthwhile accomplishments in the sound development of the state's oil and gas resources.

These mineral resources are of little value to landowner, state treasury or producer until found, brought to the surface and marketed. GULF is proud that in performing these, its primary functions, it has brought new wealth to thousands of Mississippians... and glad that the folks here encourage their state's oil and gas industry to expand the exploration and production operations which are so important to Mississippi's continued economic progress.

TWO SIDES of the same dollar

On one side of every dollar realized from Mississippi forest resources are the tree farmers. They produce the raw material. On the other side are the wood-using industries. They manufacture and market our forest products.

Mississippi citizens recognize the EQUAL importance of BOTH sides of our forest income dollar.

That's why our citizens are promoting improved forestry practices... that's why more and more of our citizens are using their dollars to provide a healthy business climate for our forest products industry... know that improved forestry practices and expanded forest land will assure a more prosperous state with more jobs and more income for Mississippians.

ARTHRITIS?

I have been wonderfully blessed in
being restored to active life after be-
ing crippled in nearly every joint in
my body; and with muscular soreness
from head to foot, I had Rheumatoid
Arthritis and other forms of Rheu-

I will reply at once and tell you how
I received this wonderful relief.

1st Baptist To Hire Education Director

The members of the 1st Baptist
Church decided at a recent business
meeting to hire an educational di-
rector.

The 1954 budget totals \$72,000 and
pledges total \$73,000.

The Church Council will work with
the Pastor, Dr. John Landrum, in se-
lecting a qualified man for the po-
sition.

Maybe THIS Is One Of The Reasons

From one of our most thoughtful
readers comes this:

I believe one of the main reasons
fewer people are buying in Grenada
this year is because of increased
business at county stores. On our
highway and in the area of this com-
munity there are eight stores; some
of them have a wonderful business.

These people formerly patronized
Grenada stores.

Fresh meats, fruits, vegetables and
any needed groceries; also work clo-
thes are available; this makes buy-
ing a convenience to rural people.
